

Salmonella enterica plasmid I
Salmonella enterica
Escherichia coli K12
Escherichia coli Zymo plasmid I
Escherichia coli Zymo plasmid II
Escherichia coli Zymo
*Listeria monocytogenes*_B
Bacillus spizizenii
Enterococcus faecalis
Pseudomonas aeruginosa
Meiothermus ruber
Parageobacillus thermoglucosidasius plasmid I
Parageobacillus thermoglucosidasius plasmid II
Parageobacillus thermoglucosidasius
Staphylococcus aureus plasmid I
Staphylococcus aureus
Staphylococcus aureus

plasmid I
 plasmid II

Motif

Methylation degree

Method of detection
